## What you need

- A computer with Chrome, Edge, Firefox or Safari (Windows, Mac or Chromebook). Nothing to install.
- Your **license key** - shown after you pay and in your receipt email from Lemon Squeezy.
- For publishing: a free [Amazon KDP](#) account (or an Etsy shop for printables).

## Unlock the studio

1. Press **Open your studio** on the thank-you page or in your receipt (the address is <https://largeprintlab.com/bigprint-studio/app/>).
2. Paste your license key and press **Unlock**. You do this once per computer.
3. Bookmark the page ( **Ctrl** + **D** , or **Cmd** + **D** on a Mac).

## 2. Book details & format

Type the **title**, **subtitle** and **author / publisher name** exactly as they will appear on Amazon. Under **Format** choose:

- **Use:** Amazon KDP paperback, or Printable PDF (Etsy / home print).
- **Trim size:** 8.5 x 11 in is best for large print. Printables use US Letter or A4.
- **Print size:** Large 16 pt, Extra Large 20 pt (the most popular) or Jumbo 24 pt for low vision.

► Add your own theme (any niche)

Under **Pages to include** keep contents, copyright, how-to pages, answer key and page numbers switched on for KDP. **Variation** gives each book a number: keep it to rebuild the exact same book later, or press **New variation** for a different book with the same settings.

## 5. Build & download

Press **Build my book**. The preview shows every page, with the page count, trim, gutter and file size. Press **Download interior PDF**. Note the page count - the cover needs it.

## 6. The cover

Open the **Cover** tab. The page count is filled in from your build; choose the paper (white or cream must match KDP), a colour style, the badge and back-cover text. Press **Make cover** and **Download cover PDF**. It is a full wrap - back, spine and front with 0.125 in bleed - with a clear area for Amazon's barcode.

The screenshot shows the 'Cover' tab in the BigPrint Puzzle Studio. The interface is divided into a left sidebar with form fields and a main preview area on the right.

**Left Sidebar:**

- Cover** (Section Header)
- Makes a print-ready full wrap cover (back, spine and front with 0.125 in bleed) sized for your book's page count.**
- Page count:** 119
- Paper:** White
- Colour style:** Six color swatches are shown.
- Badge text:** LARGE PRINT
- Highlighted word on the front grid:** PUZZLES
- Back cover headline:** Big, clear puzzles that are a joy to solve
- Back cover text:** Give your eyes a rest and your mind a workout. Every puzzle in this book is printed in extra large, easy-to-read type with plenty of room to write. You will find word searches, sudoku, cryptoquotes and more, with clear instructions and a full answer key at the back. A wonderful gift for parents, grandparents and puzzle lovers of every age.
- Title, subtitle and author come from the Build book tab.**
- Buttons:** Make cover, Download cover PDF

**Main Preview Area:**

- Shows a mockup of the book cover with a dark blue background.
- Text on the cover includes: "Big, clear puzzles that are a joy to solve", "LARGE", "Large Gam Sen", "95 Fun Puzz", and a grid of letters (E, J, I, Z, P, U, L, X).
- A small white box is visible at the bottom right of the cover mockup.

## 7. The Amazon listing

Open **Amazon listing**, optionally type the main theme or audience, and press **Write my listing**. Copy the title ideas, subtitle, description (KDP accepts its formatting), 7 keyword boxes and category ideas. Edit them to make them your own.

## 8. Upload to Amazon KDP

1. In KDP choose **Create** → **Paperback**. Enter the title, subtitle and author exactly as in the studio.
2. Paste the description and keywords; pick the categories.
3. Print options: **Black & white interior**, white or cream paper (as in the cover tab), the same **trim size** you built, **No bleed**, matte or glossy cover.
4. Upload the interior PDF and the cover PDF, then open the **Previewer** and check every page.
5. Set your price and publish. Amazon reviews every book; approval usually takes up to 72 hours.

Amazon decides on every book. Always check the Previewer, use your own titles, and do not use other brands' names in your listing.

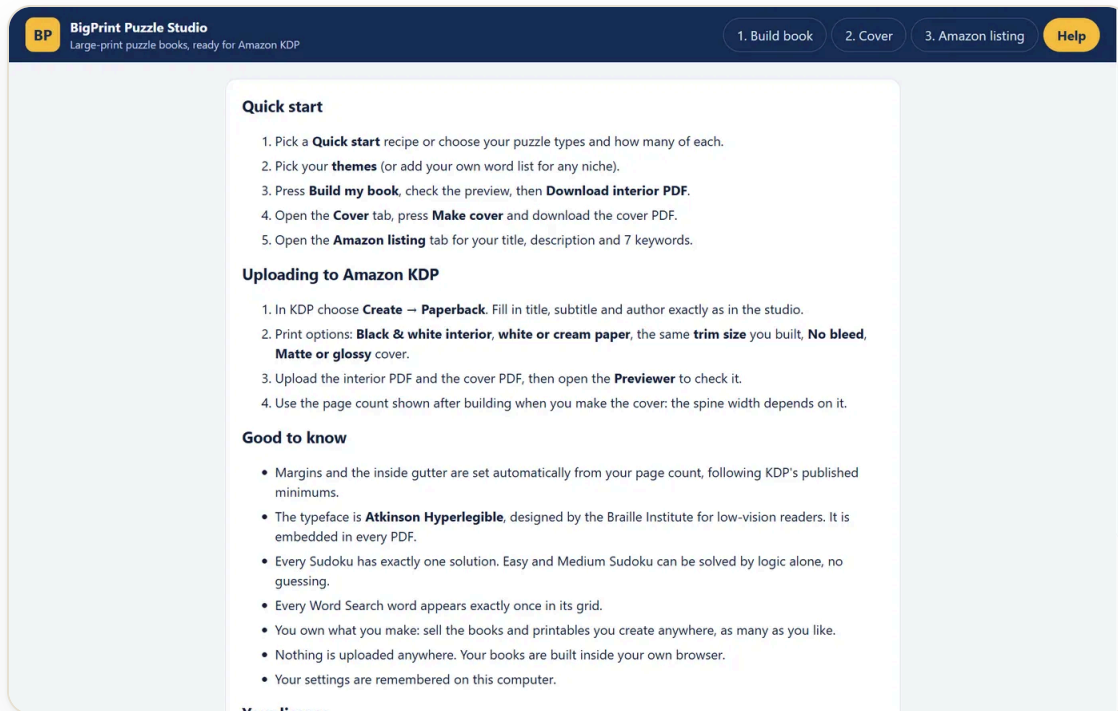

## Selling printables

Choose **Printable PDF** under Format and US Letter or A4. Upload the PDF to Etsy as a digital download, or sell it from your own site. A cover is optional for printables - the first page works as a preview image.

## Your license

- One key works on up to **3 computers** or browsers.

- Moving to a new computer? Open the studio's **Help** tab and press **Free this computer** first.
- Lost your key? It is in your receipt and in [My Orders](#).
- You may sell everything you make. You may not share or resell the studio or the key.

## Troubleshooting

- **"This key has reached its limit"** - free an old computer from its Help tab, or email us and we will reset it.
- **Nothing happens when I press Build** - update your browser; very old browsers are not supported.
- **KDP says the margins are wrong** - make sure you chose **No bleed** and the same trim size you built.
- **Cover does not fit** - rebuild the cover with the exact page count KDP shows.

Still stuck? See the [help page](#) or email [support@largeprintlab.com](mailto:support@largeprintlab.com).
