How to Play

Word Search

Find every word from the list hidden in the grid. Words run in straight lines. Circle each word as you find it and tick it off the list.

Cryptoquote

Each letter of a famous saying has been swapped for a different letter. The same code letter always stands for the same real letter. Use the hint letters to get started and write the real letters in the spaces.

Sudoku

Fill every empty square with a number from 1 to 9. Each row, each column and each of the nine 3 x 3 boxes must contain every number exactly once. No maths needed - just logic.

How to Play

Fill-In

Fit every word from the list into the grid, crossword style. One word is already filled in to start you off. Count the boxes, check the crossing letters and cross words off as you go.

Word Scramble

The letters of each word have been mixed up. Unscramble them to spell a word that fits the theme and write it on the line.

Missing Vowels

All the vowels (A, E, I, O, U) have been taken out of these words. Put them back to reveal each word on the theme.

How to Play

Number Search

Find every number from the list hidden in the grid. Numbers run in straight lines. Circle each one as you find it.

Maze

Start at the arrow at the top and find your way through the maze to the arrow at the bottom without crossing any walls.
